# Accessing Employee's Timecards

## Navigation: Main Menu > Manage Timecard Tile > All Timecards Arrow

1. Select the **Select Timeframe** drop-down list and select a timeframe.
2. **The Hyperfind** drop-down list will default to your 'All Home'
3. View a different employee timecard using one of the following methods.
  - Select the down arrow next to the first employee's name to open the employee list. Type in the search bar or scroll down to select a new employee.
  - Select the **Next Employee** or **Previous Employee** arrows to view the next or previous employee timecard.
4. Review or apply an action to the selected timecard.  
If an employee is on LOA status but has hours in the current period, will they show up in the "All Home" query?

## Navigation: Main Menu > Time > Employee Summary

1. Select the **Select Timeframe** drop-down list and select a timeframe.
2. **The Hyperfind** drop-down list will default to your 'All Home'
3. From the **Employee Full Name** column, select the checkbox next to one or more employee names.
4. From the menu bar, select **Open Selected**.
5. Review or apply actions to the selected timecards

**Note:** As necessary, you can click **Refresh** from the upper right corner of the workspace to refresh the timecard data, while retaining the selected employee, timeframe, and Hyperfind. Note that if you click the browser's **Reload button**, the page returns to the default timeframe.

# Timecard Views

**Hourly timecard** — Displays the days for the selected timeframe with columns that contain schedule, absence, and assignment information, in and out punches, transfer, paycode, and amount information, as well shift, daily, and time period totals.

Date	Schedule	Absence	In	Out	Transfer	In	Out	Transfer	Paycode	Amount
------	----------	---------	----	-----	----------	----	-----	----------	---------	--------

**Project timecard** — Displays projects (which consist of paycodes and transfers) for each day of the week. Weekly, and timeframe totals can also be displayed. If configured, schedules and daily totals display on a separate row.

Project	Mon	Tues	Wed	Thurs	Fri	Sat	Sun
---------	-----	------	-----	-------	-----	-----	-----

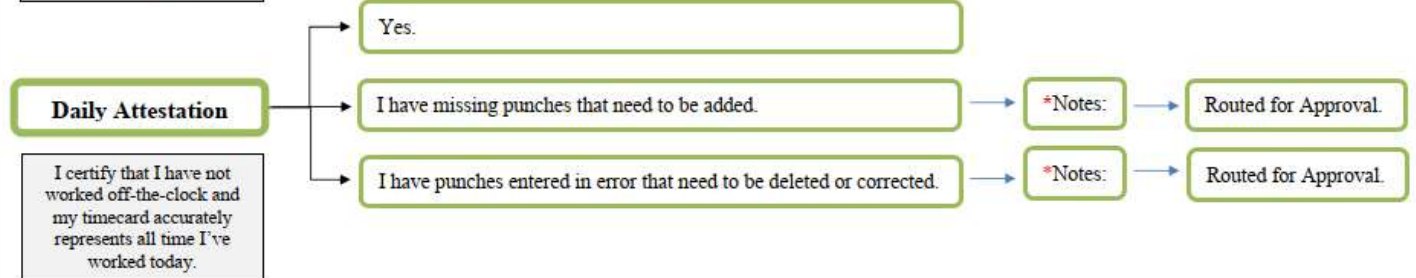

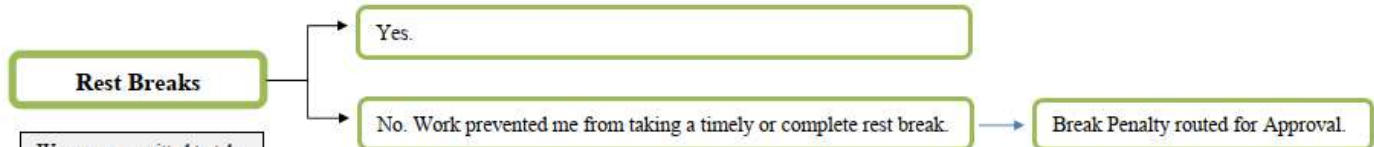

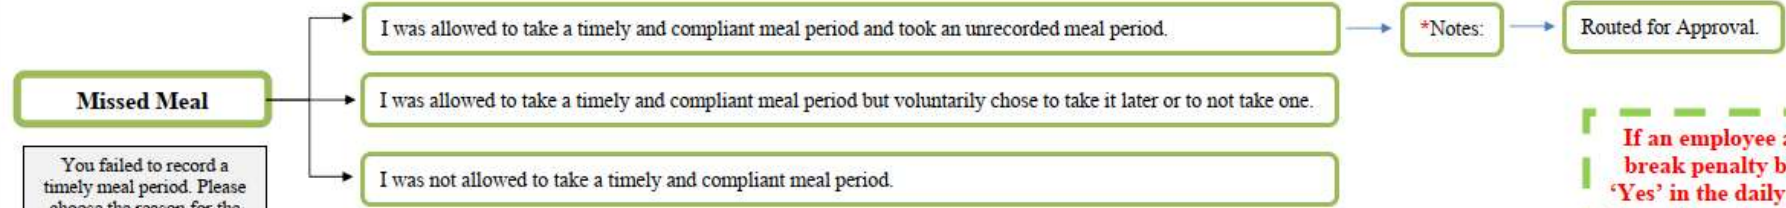

- When there are multiple exceptions in the same timecard cell, the multiple exception icon displays, but the tool tip lists all the exceptions, for example: Short Shift, Early Out, Unscheduled Shift.

# Timecard Exceptions

	The cell is solid red when there is a missed in or out punch.
	Action is required for an exception on this day.
	When the system generates an exception, the icon is red with a white line near the top. Depending on your configuration, the system might automatically add an auto-resolved paycode to the timecard if an exception occurs because of missing time, such as a late punch or absence.
	When a manager marks an exception as reviewed or justifies a missing time exception, the icon color changes to green.
	When an employee justifies a missing time exception, the icon color changes to red (with two white lines).
	If there is more than one exception, the color reflects the most severe state of all the exceptions, and the white lines are diagonal.
	If an absence has been excused, icon is blue with three horizontal lines.
	When an exception or punch is system-generated, the icon is purple with one diagonal line and the punch displays in purple.
	Holiday exceptions

# ATK Decision Tree

**If an employee adds a note or break penalty but also selects 'Yes' in the daily approval, then they will receive the below notice. The punch is still accepted.**

**Punch**

Last Punch: 2/03/2025 1:13 PM ⓘ

⚠ Timecard cannot be approved as there are pending changes in the selected period - 2025-02-03 - 2025-02-03. ✕

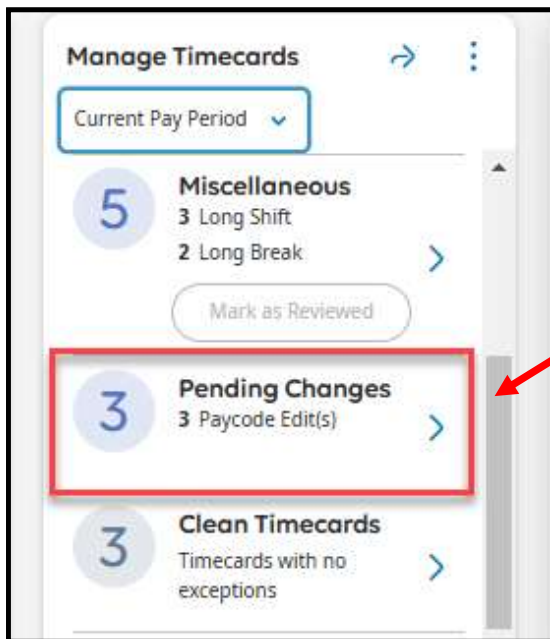

**\*\*Notes are available to communicate the need for punch corrections and are routed for approval.**

# Approve Timecard Changes

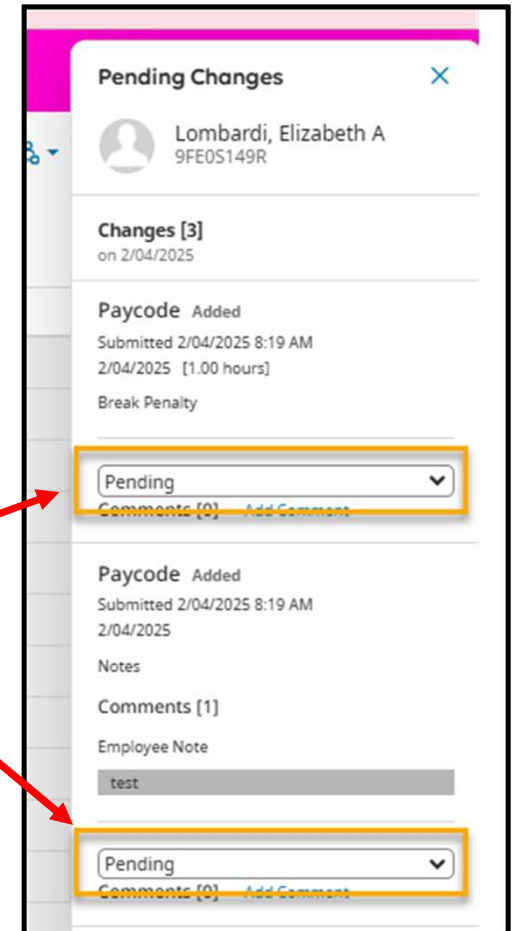

If an employee's attestation selections result in a Break Penalty or Notes, then there will be a timecard change to approve.

## Manage Timecards Tile:

You will see a "pending changes" section under the Manage Timecards Tile

- Click on pending changes.
- It will take you to the employee's timecard with the slider open.
  - You can review the details and approve/refuse individually.
  - You can approve all at the bottom.

# Approve Timecards

From the three-lined menu option on the top left -> Time -> Employee Summary

- Approve any, if needed

The screenshot displays the UKG Employee Summary interface. At the top, there is a teal header with the UKG logo and the text "Employee Summary". Below the header is a toolbar with various icons for actions like "Unselect All", "Open Selected", "Refine", "Zoom", "Approve", "Remove Approval", "Remove All Approval", "Sign-Off", "Remove Sign-Off", "Add Punch", "Add Paycode", "Enable Edits", and "Calculate Employee...". The main content is a table with columns for "Employee Full Name", "Employee ID", and "Actual Hours". The table lists eight employees, each with a checked checkbox in the first column. The "Actual Hours" column shows "14.00" for Paolo A. Melendez.

<input checked="" type="checkbox"/>	Employee Full Name	Employee ID	Actual Hours

7. Select your print options and then click Print or Save.

# Employee's Basic Schedules

## Edit a schedule from the timecard

Managers can modify an employee's schedule directly from their timecard. This may be useful, for example, when a manager needs to adjust the schedule to match the employee's actual worked time. This can also help with addressing exceptions.

To edit schedules from the timecard, you need **Edit Schedules in Timecard Editor** set to **allowed** in your function access profile.

When editing a schedule from the timecard: You can view the Schedule Actions glance which provides more information about the schedule, including shift details and business structure information.

## To edit a schedule from the timecard:

In the **Schedule Actions** glance, click **Edit**.  
In a timecard, right-click the schedule for the day you need to edit.

In the **Schedule Actions** glance, click **Edit**.

In the **Edit Schedule** panel, edit the **Start Time** and **End Time** as necessary. If you need to extend the shift to the next day, click the date.

Click **Apply**, and then click the X to close the **Edit Schedule** panel

View your changes, and then click **Save**.

**Note:** Editing a schedule from the timecard allows you to modify existing schedules, not add shifts or delete shifts. Edited shifts cannot be outside of the originally scheduled shift; the edited time must overlap the existing shift.
